The space

A grand Victorian home with many original features that blend beautifully with a contemporary and impressive renovation. The original rooms at the front of the home lead the way to the stylish, bright and spacious renovation to the rear. High ceilings allow the light to flow in. Two tranquil private courtyards with a water feature and greenery. Oak floors, a sleek gas fireplace, gourmet marble kitchen plus a full butler's kitchen. Stunning artwork and furniture with a contemporary vibe. Many opportunities in this location. This home would suit TVC's, film and still shoots. Could cater for a medium size crew in central St Kilda.
