The space

This Multi leveled beach house in Sydney Whale Beach is beyond exquisite. With spectacular ocean views from the multiple decks and open plan living spaces. A solar heated pool and a pool deck with a hot outdoor shower and plenty of comfortable sun lounges to read and relax on.

There is a BBQ on the main entertaining deck. All bedrooms have their own bathrooms/ensuites.

The studio apartment is located below the pool deck (separate to the house and requires external access from the main house) and is the perfect location for guests to sleep away from the main beach house. With a touch of the Hamptons in the homes decor, this seaside Mansion is a breath of fresh coastal air.
