### The space

Featuring traditional German elements, Darlington Hill provides a retro setting for all production types. The home boasts a century old pool table in the games room, a gorgeous wrap-around verandah and city views from the balcony. The front and rear gardens are both meticulously kept and provide ample space for easy equipment access and shoots.

Offering a suburban, countryside atmosphere, interiors feature beamed ceilings, a classic kitchen, as well as period features. These are perfect aspects to bring photoshoots and video campaigns to life.
