The space

'Leaning Oak', built in 1916, is a magnificent, stone built cottage filled with character and charm. Quietly nestled on the fringes of Mudgee set on 40 acres.

The space offers beautiful rural views overlooking rolling hills, green pastures and colourful sunsets. The property is a short 15 minute drive from Mudgee town centre and a 20 minute drive from Mudgee Airport. The exterior of the property offers a real old-world feel, with period features which make this home truly classic. It would be great for filming a range of TV series, photoshoots, or even as an event venue.
