The space

Set on 100 acres, Palazzo Sophia was first opened to the fashion industry in 2015 and has been the area's most loved shoot space ever since. Come cloud or sunshine, there's always something to inspire incredible shoots here.

Flower filled bronze fountains are dotted throughout terraced formal gardens. Flowers bloom in decorative pots in all spaces. Grecian statues and columns surround this lemon yellow rendered Italianate home and pool. Cascading three storey bronze fountain is the centrepiece of pool. Large flowering topiaries, flowering vines and decorative wrought iron complete the scene with panoramic ocean views including tiered castle wall folly hedges multiple light filled Mediterranean marble courtyards. Romantic, old world charm, ancient gardens and 'its in a world of its own' vacation vibes inspires limitless creativity.
