TVC & Video

The space

A contemporary two-story home featuring backdrops in valley vistas. Northern light and streamlined interiors make this space a perfect place for shoots or TVC productions.

The spacious layout is connected to the leafy garden, with bi-fold doors on two walls of the open-plan living, one side open to an entertaining terrace and the other to the in-ground swimming pool. There's blackbutt flooring, a wood fireplace, and a kitchen with stone bench tops. A striking void highlights the grand proportions. This is a go-to space for incorporating poolside looks and level landscaping. Dual street access with a secure undercover garage.
