The space

A truly unique property that lies just under 90 minutes from Sydney CBD. This 188 year old cottage has been lovingly restored to its heritage glory with its grand veranda overlooking the 75 acres of rolling grounds down to 2kms of private river-frontage. This idyllic setting would be ideal for a number of photography stills, as well as TVCs and filming.

The countryside becomes one with this both rustic and contemporary federation-style bungalow. A neutral colour palette of nudes, browns, whites and blacks give this space a relaxing feel with a wood-burning fireplace, intricate patterned ceilings, and lots of windows that allow light to flood the space. The old tractor shed has been converted into three modern studios while still retaining the farm's rustic charm.
