The space

Located just outside of Melbourne's CBD nestled in the tranquil village of Clifton Hill, this newly renovated two-storey terraced house combines a perfect mix of period charm and contemporary flair. It provides a beautiful backdrop as a location for shoots, a filming location or even as an events space.

Clean lines and an abundance of light flood into the property which highlight the polished concrete floors, high-end finishes and beautiful steel doors. A true model home that features an extension at the rear, this location really presents a lot of potential for a range of filming and photoshoot requirements.
