The space

Located in one of the coolest hoods lies one of Melbourne's newest and most exciting event spaces. Loft-like, with exposed brick walls and beams, black steel frame inspired doors and windows, The Emerald is the ideal contemporary alternative to the customary event space. Its design is noticeably inspired by the way we live, making it a warm and welcoming space from the moment you walk through the front doors. Equipped with modern day technology, yet staying true to its architectural integrity, the space lends itself to limitless branding opportunities and has the ability to be easily transformed.
